ENJOY WATER
Your GROHE Kitchen

grohe.com
ENJOY GROHE KITCHEN EVERY DAY

GROHE is cooking up a storm in the kitchen. With designs to match all styles of interior, all installations and all budgets, our enticing portfolio of kitchen faucets will exceed your expectations.

In the same way a great meal combines beautiful presentation, fresh ingredients and nutritional value; our faucets are the perfect balance of quality, technology and design. Using only the finest materials and the latest industry-leading technologies, GROHE kitchen faucets deliver years of reliable performance – day in, day out.

An appetizing mix of product features makes light work of daily tasks and will impress even the most reluctant home chefs, while a generous seasoning of practical features such as pull-out sprays and mousseur, low-pressure models and faucets for pre-window installation, ensures all of your needs are covered.

With their fusion of award-winning design and innovative functionality, our Premium Lifestyle Collections will enamour passionate chefs who settle for nothing less than perfection. Our new K7 kitchen faucet range introduces professional-level styling and features to the domestic kitchen, with its modular concept and choice of professional spray, pull-out spray or side spray.

GROHE Performance Kitchen Lines offer a wide choice of spout heights and product features, making them the ideal choice for family kitchens. Coordinating ranges of bathroom faucets and fittings are also available to create a cohesive look throughout your home.

Our Kitchen Water Systems, GROHE Blue® and GROHE Red™, are more akin to kitchen appliances than faucets and position GROHE at the forefront of water innovation in the kitchen. The two systems introduce a new level of convenience and functionality by delivering ready-to-use water straight from the kitchen faucet. Filtered and chilled or boiling hot. No waiting, just instant refreshment on demand.

For functionality, innovative features and award-winning design, GROHE is the connoisseur’s choice, every time.

David J. Haines
THE GROHE KITCHEN

Water is used for cooking the world over. We need running water in the kitchen up to 90 times each day. We take it so much for granted that we often don’t think of water when we hear the word ‘kitchen’. We think of well-filled refrigerators, aromas wafting from the oven and of tables laid ready for dinner. But we forget what works hardest in the kitchen: the kitchen faucet. Something that is used this frequently must be durable – and since kitchens are increasingly becoming living spaces, it also has to look good. That’s why ergonomics, functionality, aesthetics and durable finishes are so important in GROHE kitchen faucets.

GROHE’s promise to you is that you will have it easy. For a lifetime. High-quality materials, outstanding design and innovative technologies ensure that your GROHE faucet will last a lifetime. Our faucet levers feature GROHE SilkMove® technology, making then extremely easy and precise to operate even with greasy hands.

Intensive daily use leaves its traces. Normally. However, GROHE StarLight® chrome resists scratches and ensures a lifelong glossy finish. And if you like the look of stainless steel, you’ll love our SuperSteel® finish. For professional-level endurance choose RealSteel®, made from solid stainless steel. However it’s not just with lifelong, perfect function that GROHE impresses in the kitchen, but also with form and finishes that please the senses.

True style shines through in daily life.
From modern, Cosmopolitan single-lever mixers, through our timeless Contemporary lines to the Authentic style two-handle faucets, you will find exactly the right faucet to match your aesthetic ideals. Countless designs and spout heights give you huge scope when choosing your kitchen furniture and sink; while pre-window models, integrated dishwasher shut-off valves and low pressure variants ensure there’s a model to meet all of your installation requirements.

Professional sprays for home use.
Many of our models are available with pull-out mousseurs and sprays, a convenient and time-saving feature when rinsing salad leaves or washing greasy pans. Even with intensive use of the faucet. And you will be amazed at the adaptability and flexibility of our side and professional sprays.

Tap water takes its place at the table.
GROHE serves you top-quality drinking water directly from the faucet – from cold to boiling hot. For filtered, chilled and carbonated water, choose GROHE Blue® Chilled & Sparkling. The GROHE Blue® Pure filter system is perfect for those who like still, uncooled water. GROHE Red™ delivers boiling water directly from your faucet, without the wait. For a quick pasta meal, for a hungry baby, for a coffee now and again and so much more.

GROHE WATER SYSTEMS

GROHE BLUE®

GROHE RED™
Ongoing investment in research and development allows us to turn world-leading technologies for bathrooms and kitchens into reality. Our products have been created to last a lifetime, to be both easy and intuitive to operate and to make the use of water a pleasure.
GROHE SilkMove®
Precise and effortless water control for a lifetime of smooth and comfortable faucet handling.

GROHE StarLight®
A radiant chrome finish that resists soiling and tarnishing for enduring pristine looks.

GROHE EcoJoy™
Integrated water-saving technology reduces water and energy consumption without compromising product enjoyment.

GROHE CoolTouch®
No risk of scalding yourself on a hot chrome surface.

GROHE Enhanced Water™
Superior-quality water direct from the kitchen faucet – saving time, money and the environment.
Accommodating your every wish and desire, GROHE water systems and kitchen mixers include user-centric features and ingenious details that make all the difference. More choice, more comfort and more flexibility; which is why our products are such a pleasure to use.

**HandCrafted**
These exquisite pieces are refined and hand-polished by skilled artisans.

**Extensive Range**
A wide choice of designs to meet your functional and installation needs.

**Real Steel**
Made of solid stainless steel – a robust material with anti-bacterial properties.

**Pull-out Mousseur**
Increases the operating radius of your faucet.

**Pull-out Spray**
Increases operating radius of the faucet and offers different sprays.

**Professional Spray**
Features a 360° spring arm and easy switching between the spray and mousseur.
**Open Water Heater**
The perfect flow in combination with open water heaters.

**Child Lock**
Integrated safety mechanism prevents unintentional opening by young children.

**Stop Valve**
Includes a dishwasher shut-off valve on the faucet body.

**Pre Window**
To open the window, just lift up the faucet and lay it flat on the surface.

**Smooth Turn**
Extra smooth movement of all swivel spouts for easy handling.

**Side Spray**
The spray is mounted to the side of the faucet.

**Comfort Height**
Height of the spout allows easy filling of large pots.

**Swivel Stop**
Limited turn angle prevents flooding.

**Speed Clean**
Remove lime scale with a single wipe.

**Side Spray**
The spray is mounted to the side of the faucet.
GROHE PREMIUM LIFESTYLE COLLECTIONS

GROHE treats the kitchen with the respect it deserves. It’s so much more than just a workspace. It’s where you spend most of your time, it’s the heart and soul of your home and it’s often furnished to a correspondingly high standard. That’s why GROHE kitchen faucets deliver more than you expect in every respect. The workmanship, durability, innovation and design will satisfy more than just those with an appreciation for beauty. Home chefs who demand the same functionality as professionals sum up the characteristics of GROHE kitchen faucets in just one word: perfect.
Professional looks and professional-level features – the K7 collection of kitchen faucets has it all. A fusion of crisp, architectural styling and practical attributes, K7 will appeal to culinary experts who settle for nothing less than the best.

An arched coil guides the extractable hose, which combines a mousseur with a wide spray, while the lozenge-shaped lever – featuring GROHE SilkMove® technology – gives precise control of the water flow and temperature. A choice of two surface finishes gives the faucet two distinctly different looks. GROHE StarLight® chrome lends an air of elegant modernity to the design, while SuperSteel embodies the strength and pure luxury of the range. Ensuring compatibility with all styles of sink and kitchen layout, the range features a comprehensive choice of single-hole and two-hole faucets with or without an integrated spray. For added convenience, models with an independent hand-held spray are also available.
In the kitchen, a lot depends on skill and timing. Professional chefs know this better than anyone. That is why GROHE K7 was developed with input from professionals and geared to the needs of home chefs. GROHE K7 answers the question of whether the focus of design is functionality or aesthetics with an emphatic ‘Both’!

GROHE K7 is so functional that you can devote your full attention to what you are doing. The professional spray can be pulled out, turned and swivelled 360° and operated with one hand. Furthermore, you can switch back and forth between the spray and mousseur without having to turn off the water.

For even more flexibility, and embracing the latest wireless technology, a digital model is also available. The intuitive interface enables you to start and stop the water with a single touch and to increase or decrease the water temperature with another. To select the water volume use the dial around the outside, the textured surface makes it easy to use even with wet hands. An LED ring displays the water temperature giving you instant visual feedback.

As keen chefs know all too well, greasy hands can be a hindrance in the kitchen. But not with Minta. The design features a textured ProGrip™ surface on the lever handle and all models with a pull out spray, to ensure effortless faucet handling at all times. Whether you’re making pastry or coating Mediterranean vegetables in olive oil before roasting them in the oven, you’ll be enamoured by this practical feature every time.
GROHE MINTA

Kitchen design moves with the times, which is why we’ve updated this GROHE classic to offer more choice, more user-friendly features and of course more enjoyment in the kitchen. With three spout shapes - L, C and U - and a diverse range of features we’re convinced that our healthy spread of designs will whet your appetite.

In the kitchen, well considered details make all the difference. To ensure Minta is exceptionally comfortable to use in all situations, even when the faucet is positioned in front of a wall, we re-aligned the cartridge inside the faucet. The lever handle turns 70° to the front and 30° to the back, which, when combined with GROHE SilkMove® technology, delivers a level of user comfort that is hard to beat. Even in the tightest spaces.
A contemporary kitchen also makes the time we spend in it more enjoyable. It has to run like clockwork so that you can enjoy your time in the kitchen and still have time for other important tasks. GROHE Zedra is perfect in this respect.
Zedra combines contemporary design and maximum functionality with exemplary reliability for rigorous everyday use. The body flows elegantly into the wide swivel spout in full harmony with the GROHE design aesthetic. The extensive range offers a lot of variety: choose between versions with a pull-out spray that extends the operating radius of each model.

Limescale on the flexible pull-out sprays can be easily removed thanks to the SpeedClean nozzles. Zedra comes in two high-quality finishes: our high-gloss GROHE StarLight® chrome or GROHE SuperSteel, our luxurious stainless steel-effect finish. Whichever you choose, GROHE SilkMove® will ensure long-lasting smooth movement.

Master chefs are used to having specialists at their disposal for all tasks. From the saucier to the pâtissier, they can call on a perfectly coordinated team. It’s actually no different in your kitchen. It’s just that your team is much more compact: a single multi-tasker, the GROHE K4 kitchen faucet.
You can easily meet all the requirements in your kitchen with the K4 series. The gently curved shape with 360° swivel spout and a pull-out spray with SpeedClean® for easy removal of limescale from water nozzles guarantee reliable and convenient operation - ensuring more freedom in your daily kitchen tasks.

From a technical point of view, the GROHE K4 impresses with true robustness. GROHE SilkMove® guarantees smooth movement, even after years of hard use. And the GROHE StarLight® chrome finish will keep your faucets shining like new for years to come.

In the kitchen, good ingredients can make something special out of something ordinary. As the perfect embodiment of the GROHE design philosophy, Veris is the unique highlight of any kitchen. Maximum functionality is ensured by the swivel spout as well as the innovative and ergonomic design.

If you’re looking for complete design coordination throughout your home the search is over. The GROHE Veris collection includes an extensive range of bathroom faucets and shower faucets. GROHE SilkMove® technology means that flow rate and temperature can be evenly and precisely regulated, while GROHE StarLight® helps to keep the elegant styling bright for many years.
GRoHE ATRIO

Colour options:

@ 000  I  StarLight Chrome
Classic dishes are just as delicious today as a hundred years ago. This won’t change in the next hundred years either, since good taste is as enduring as the design of the GROHE Atrio faucet. The individual look of the elegant two-handle faucet with arched spout or single-lever sink mixer with L-shaped spout lends GROHE Atrio a timeless quality that will add a refined edge to any kitchen style. The Bauhaus-influenced design with stepped escutcheon, slim mixer body and a tubular spout can be carried on throughout the house, thanks to a coordinating collection of bathroom faucets.

Also timeless is Atrio’s glossy finish. GROHE StarLight® chrome provides lasting protection against dirt and scratches. Also enduring is the high ease of operation afforded by the smooth GROHE SilkMove® technology.
GROHE ESSENCE

You like precision in the kitchen? Perfectly julienned vegetables, perfectly chilled wine, perfectly cooked meat? Then the clean lines of the GROHE Essence kitchen faucet will be exactly to your taste, with a cylindrical Cosmopolitan design that can stand up to scrutiny from even the most demanding master chef.

Essence kitchen faucets come with or without pull-out mousseur and in two hard-wearing finishes: the high-gloss GROHE StarLight® chrome and the stainless-steel look SuperSteel version. The slim operating lever ensures easy and convenient water and temperature control thanks to GROHE SilkMove® technology. The GROHE EcoJoy™ version delivers significant water savings – effortlessly.

GROHE ALIRA

Colour options:

© SDO | Stainless Steel
Robust and packed with features, Alira is the ideal choice for a hard-working kitchen. Made from RealSteel – a professional grade, 18/10 stainless steel with inherent antibacterial properties – Alira introduces this hygienic and durable finish to the domestic kitchen. For enhanced comfort and smooth handling of the faucet lever, the design also benefits from GROHE SilkMove® technology. A swivel spout and pull-out spray with a choice of spray or aerator functions ensures the perfect balance of stylish looks and perfect performance.
GROHE ARIA

Colour options:

@ 000 | StarLight Chrome
Like a culinary masterpiece made from a few well chosen ingredients, Aria’s harmonious arrangement of design and features will bring an air of quiet sophistication to contemporary kitchens. The design is also the perfect choice if you prefer a two-handle faucet.

Finished in GROHE StarLight® chrome, the mixer complements the Aria collection of bathroom faucets, giving users the opportunity to create a cohesive look throughout the home. Carbodur head parts in the handles make Aria virtually immune to wear and tear and ensure perfect handling even after years of heavy use.
GROHE PERFORMANCE LINES
Our Performance lines are as varied and multifaceted as your kitchen. A large range of designs offers an exceptional array of features and functionality. High spouts, low spouts, faucets for installation in front of a window and low pressure models – your every need has been addressed. With every turn of the page, you’ll be surprised by the choice and impressed with the value.
GROHE EUROPLUS

Europlus balances a modern appearance with intelligent ergonomics. The sculptured lines of the body, enhanced by the GROHE StarLight® chrome finish, run seamlessly into the lever and radiate style. The lever is set at a slight angle of seven degrees to simplify handling and is extremely easy to operate thanks to GROHE SilkMove® technology. The medium spout height will accommodate the largest of pans, while the pull-out spray is an extra help for ambitious chefs. The low-pressure version means that GROHE Europlus is compatible with all water supply systems. The range also includes a version with separate dishwasher shut-off device as well as a version for installation in front of a window.

In the same way that a great meal is a result of carefully balancing flavours, textures and nutrition, your kitchen faucet should be a balanced combination of design and practical features. Well considered details that work for you and the installation requirements of your kitchen. Fortunately, Eurodisc Cosmopolitan offers enough choice and design nutrition to satisfy the most demanding chefs.
GROHE EURODISC
COSMOPOLITAN

In developing Eurodisc Cosmopolitan, we thought about chefs who are not so easily satisfied. These discerning individuals will recognise the attention to detail and nuances. The high-gloss chrome finish elegantly emphasises the tapered edges. You can expect the same perfection in the functionality of the faucet as in the form.

You can choose between three different spout heights, different versions and countless installation options. Whatever choice you make, you are guaranteed an attractive appearance and easy operation over the lifetime of the faucet, thanks to GROHE SilkMove® cartridges and GROHE StarLight® chrome finish.

Like the finest desserts, Concetto is a visual feast for the eyes on the outside and a tempting delight on the inside. Whether it’s the choice of spout shapes or the mix of practical features, which delight at every turn, the collection mixes all the essential ingredients required to add the finishing touch to your kitchen.
Concetto combines stylish minimalist design with superior ergonomics to reflect the core values of the Cosmopolitan design. Consisting of a series of cylinders, an arched or medium height spout rises elegantly from the sink. Its purist beauty is highlighted by the high-gloss GROHE StarLight® chrome finish which repels dirt and prevents tarnishing. GROHE SilkMove® technology enables fingertip control of water flow and temperature. And all with an unbeatable price/performance ratio.

No two kitchens are the same. What works in one environment is not necessarily right for another, which is why we offer kitchen faucets with different spout heights and with or without pull-out sprays. And this level of choice is just one of the reasons why Eurostyle Cosmopolitan is the perfect addition to kitchens with style and Cosmopolitan flair.
Eurostyle Cosmopolitan will play a leading role in your kitchen – and not just in terms of functionality. With a choice of three spout heights it also sets the tone for the design of your kitchen.

Two unique GROHE technologies, GROHE SilkMove® and GROHE StarLight®, guarantee years of smooth operation and a durable glossy finish. With its wide range of different models, the collection will meet all of your needs, whatever they may be. Low-pressure models, versions with a pull-out mousseur and with a dishwasher shut-off device as well as faucets that can be installed in front of a window are available.

Eurostyle Cosmopolitan also complements the architecture of your kitchen and leaves nothing to be desired.

In an over-complicated world, sometimes it’s nice to keep things simple. Freshly-cut crudités dipped in aioli or a bowl of strawberries with a splash of balsamic vinegar – with fine ingredients a ‘less is more’ approach works best. And this is the approach we took when designing Eurosmart Cosmopolitan, focussing only on the essentials and giving them a fresh Cosmopolitan twist.
The new Eurosmart Cosmopolitan collection of kitchen faucets combines the clean, geometric lines of modern architecture with durable technology. They offer an impressive balance of modern aesthetics and excellent ergonomics. The swivel spout is convenient and easy to use – the ideal complement to any sink.

Proven technologies such as GROHE SilkMove® for precise and smooth control and the high-gloss GROHE StarLight® chrome finish ensure the functionality and a flawless appearance, even after many years of use. The GROHE EcoJoy™ version of the Eurosmart Cosmopolitan kitchen faucet effortlessly saves water and energy. GROHE EcoJoy™ reduces the maximum flow rate to 5.8 litres per minute – although it will feel like much more. And all with an unbeatable price/performance ratio.

Eurosmart – practical, with solid design and high-quality internal components. GROHE SilkMove® technology makes one-handed control of the water flow rate and temperature child’s play, while the perfectly positioned spout makes it easy to fill pots. And for an immaculate shine, our GROHE StarLight® chrome ensures a lifelong sparkling appearance. The GROHE EcoJoy™ version for reduced water consumption completes the range.
When you want more from your kitchen faucet than hot and cold water choose a GROHE water system. GROHE Blue® and GROHE Red™ go beyond regular faucets to introduce new features, functionality and convenience to your kitchen. Boiling water on demand, or a glass of chilled and sparkling water to refresh and re-hydrate, our water systems save you precious minutes every day.

GROHE BLUE®

GROHE RED™
Quenching your thirst, re-hydrating your body, preparing meals and rinsing dishes - water is essential not only for our health and well-being but also for almost everything we do in the kitchen. As experts in water enjoyment, we want you to enjoy the time you spend in your kitchen by making everything as convenient as possible. Filtered and chilled or boiling hot, our water systems supply water à la carte direct from the kitchen faucet – offering real innovations and unique features designed to save you time and money.

**Cool technology. Instant refreshment.**
Who can say no to the convenience of freshly-filtered water on tap? With GROHE Blue®, water is more palatable, readily available and, depending on which model you select, even offers the choice of still or two levels of carbonation. And once the water has been filtered it never comes into contact with any metal parts or the regular unfiltered water. Built-in technology takes the guesswork out of when to change the filter - when the filter capacity drops below 10 percent the LED display on the faucet handle lets you know it’s time to order a new one.

**Hot features. More convenience.**
A mid-morning herbal tea or a quick bite to eat? When time is of the essence, GROHE Red™ is on hand, ready to deliver boiling hot water straight from the faucet. Two sizes ensure everyone can find their perfect match, with the larger Duo model replacing a standard faucet with one that can supply both mixed water and boiling water. And in case you’re worried about the safety of younger family members, the child lock feature helps to prevent curious little hands from being able to open the faucet.
Every day, we all benefit from and enjoy the luxury of drinking water straight from the faucet. Most of us are happy using it for cooking and making cups of tea and coffee, but when it comes to drinking a glass of water, we are often put off by the taste and reach for a bottle of mineral water. Hardly convenient and not exactly sustainable either. Invest in a GROHE Blue® water system and you’ll have instant access to a constant supply of freshly-filtered, great-tasting water.
More taste
GROHE Blue® premium kitchen faucets feature a revolutionary high-performance filter that removes the impurities that affect the taste and odour of ordinary tap water – heavy metals, chlorine and limescale – and so delivers the clean, refreshing taste that is expected from bottled mineral water. Two separate internal waterways – one for filtered water and the other for unfiltered water – and an innovative mousseur ensure that once the water has been filtered it never comes into contact with anything that may taint its taste.

More convenience
The unique GROHE Blue® water systems deliver fresh, great-tasting filtered water from the convenience of your kitchen faucet whenever you want it – 24 hours a day, 7 days a week. An LED display on the faucet handle indicates when the water filter needs to be changed. The light flashes when the filter capacity is less than 10%. The filter lasts up to 12 months, has a capacity of 600 litres and can be adjusted to the hardness of the water. The GROHE Blue® Pure Starter Kit comprises the faucet, an under-sink filter and a GROHE Blue® glass carafe whose elegant form reflects the purity of the water.

Less environmental impact
GROHE Blue® combines convenience and a healthy lifestyle in one environmentally-conscious package. Compared to the pollution and energy consumption caused by filling and transporting bottled mineral water, filtering tap water has a negligible environmental impact. GROHE Blue® saves resources and money, since seven litres of water are needed to put just one litre of bottled water on a supermarket shelf. Energy is also saved, as heavy bottles no longer need to be carried home and time and resources spent recycling them.

Fine particle filter
Captures all particles above a size of 10 µm.

Activated carbon filter
Removes substances which impair the smell and taste, such as chlorine and organic compounds.

Ion exchanger
Reduces the lime content, filters out heavy metals from the water and reduces the hardness.

Non-woven pre-filter
Removes large particles.

Hose 2
unfiltered water
Still, lightly sparkling or sparkling water? GROHE Blue® Chilled & Sparkling combines the modern look of a designer faucet with a high-performance filter, cooler and carbonator – and is as easy to use as an ordinary kitchen faucet. The right lever on the faucet is used to mix hot and cold tap water as usual. The left rotary knob with integrated coloured LED display regulates the carbonic acid content of the filtered and cooled water. The light flashes when the filter capacity is less than 10%.

The carbonator integrated in the built-in box adds especially fine bubbles of carbonic acid to the filtered and cooled water to produce lightly sparkling or sparkling water according to taste.
GROHE Blue® Chilled & Sparkling Starter Kit comprises: Single-lever mixer with filter function, glass carafe, water filter complete with filter head, cooler and carbonator box.

GROHE Blue® Pure is the alternative solution for people who prefer the natural taste of still water. Using the unique GROHE Blue® filter technology it turns ordinary tap water into fresh water, removing all of the substances that can impair its taste. Finished in GROHE StarLight® chrome, the faucet has separate internal waterways – one for filtered water and the other for unfiltered water.

This means that people who prefer ambient, still water without any carbonation at all do not have to miss out on the great taste of water from a GROHE Blue® water system. The GROHE Blue® filter cartridge can purify up to 600 litres of water and can be replaced in just a few steps. It delivers a pure, refreshing taste experience with no aftertaste of heavy metals, limescale or chlorine.
GROHE Blue® Pure Starter Kit comprises:
Single-lever mixer with filter function, glass carafe and water filter complete with filter head

Boiling hot water. In the past you would have needed a pot or kettle, now it comes directly from the faucet. The innovative GROHE Red™ boiler system keeps three to six litres of boiling water (depending on the boiler version) ready for immediate use at all times.
THE WATER’S BOILING!
Take a moment to count up just how many times you need boiling water in the kitchen. When you’re looking forward to a nice cup of tea, when you want pasta in tomato sauce this instant, when the baby’s crying with hunger but the bottle is not sterilised yet. This list goes on…

With GROHE Red™, you can draw 100 °C water directly from the faucet without having to wait. Up to three or six litres depending on the size of the boiler. Simple. Economical. And with a responsible energy balance.
Based on the average power costs for 2009 in Germany, depending on ambient and water temperature.

GROHE Red™ pays off. For you and the environment.

GROHE Red™ proves that convenience and environmental awareness do not have to be mutually exclusive. In contrast to a water boiler or boiling water on a hob, with our innovation you only heat as much water as you need. This saves water, energy and even costs. In basic mode, GROHE Red™ boilers cost just 10 cents* a day to maintain the water at 100 °C once heated.
