For over seventy years GROHE has been manufacturing superior quality faucets and sanitary fittings. Our products have won numerous design awards and are acknowledged internationally for their reliability, durability and performance.

We design and build German quality into every step of our manufacturing process. Our global manufacturing footprint comprises three factories in Germany – Hemer, Lahr and Porta Westfalica – one in Portugal, one in Thailand and one in Canada.

All GROHE faucets, showers and sanitary fittings meet the premium quality standard, irrespective of where they are manufactured. This quality is assured globally by external certification according to the internationally recognized ISO 9001 and ISO 14001 quality management systems.

Our internal testing procedures are among the most grueling in the industry. All GROHE products are life-tested to meet our rigorous internal standards. For example, instead of the 90,000 temperature change required by ISO 9001, GROHE faucets must complete twice as many cycles.

Quality, technology and design are central to everything we do. We take pride in the performance of our products and offer a 10-year warranty on all functional parts, excluding wear and tear. This guarantee demonstrates our commitment to delivering a lifetime of unique user experiences to our customers.

GROHE Baulines

Sharing the same ideals as the influential Bauhaus design movement – that form and function should work together – the Baulines range from GROHE fuses bold design and high-quality materials with the latest German manufacturing techniques.

From the geometric lines of BauEdge to the softer aesthetic of BauClassic, there’s a collection to meet your requirements and enhance your bathroom. Each collection features a range of faucets for the basin, bath and bidet and is completed by a choice of shower solutions. This comprehensive offering ensures design continuity throughout the bathroom, enabling you to create a space that is aesthetically pleasing and comfortable to use.
GROHE COSMOPOLITAN STYLE
Designed to enhance the purity of modern architecture, BauLoop brings lightness to its surroundings through its striking loop-shaped lever handle and cylindrical body. Featuring the signature GROHE design elements, the collection carries its minimalist design ethos over a number of draw-off points and includes a faucet for vessel basins.

GROHE from Germany. World’s No. 1 brand in sanitary fittings*.

BAUEDGE

Consistent use of lozenge shapes, lends an air of balance and harmony to BauEdge. The modern silhouette of the lever handle is pitched at an angle of seven degrees for comfortable use without compromising the clarity of its form, while a comprehensive range of faucets and showers ensures this sophisticated design meets your design requirements.

GROHE from Germany. World’s No. 1 brand in sanitary fittings*.
Refined and authentic, the BauClassic faucet collection effortlessly blends a traditional aesthetic with 21st century engineering. Fluted detailing at the base of the faucet the body and the spout brings an air of elegance to design and is repeated at the end of the slender lever handle. The collection includes a three-hole basin mixer to ensure a harmonious match with period-style basins.
